Area of Learning: Physical Education, Health and Well-being Scheme of Work: Invasion Games

Key Stage: 1	Year: 2	Duration: 6 Lessons	
Intent: To experience working with a variety of equipmen	t and to develop individual skills leading to co-operative pla	y. To develop movement skills relevant to games,	
	nd skipping. To begin to make use of space and start to thin		
others' performances, as well as their own. To understand feelings during exercise and link to activity intensity. To develop the ability follow instructions and activity rules fully.			
Knowledge	Skills	Sequencing	
Through the implementation, students will be able to	Running	Learning should:	
understand, use and recall the following knowledge	Stopping	Build on co-operative play ideas.	
relating to games activities: Decision making relating to space and opposition.	Chasing	Involve some space concepts and beating an

a competition game situation while adhering to a set	Will show success in competitive games through	limited time.	
of rules.	making informed decisions.	Will understand the significance of the opposition	
		positioning and how to exploit this.	

Implementa	mplementation:		
Week	Learning objectives	Task examples	
1	Bean bag activities To develop a range of basic game skills and consistency of their replication. To learn about moving in your own space in a variety of ways safely using your equipment. To begin to accurately pass the ball in a variety of ways. To perform core skills in a small sided game situation.	Warm up – 1 ball between 2, walk around with ball in a particular way – dribbling with feet, bouncing & throwing. On whistle pupils must pass to another pupil and continue without a ball. Group stretches. Main activity - In pairs how many different ways can you think of to carry and pass the beanbag. Share some interesting ways and all try. Discuss passing the beanbag accurately – sliding, throwing, kicking? 4 vs 4 end-ball small sided game (see task card).	
2	Quoits, beanbags & balls while travelling To replicate a range of ways to throw, roll, bowl, balance and retrieve quoits. To develop travelling skills while maintaining control over the object. To use both feet/hands when dribbling and encourage use of vision. To be able to perform these in a small sided game when under pressure.	Warm up –'beans' game. Stretches. Collect a beanbag or quoit each. Practice throwing and catching. Then with a ball bouncing downwards - standing still and on the move (walking or moving in different ways). Share interesting ideas and practice. Put the ball on the floor and dribble or steer it about the playground with hand. STOP and change direction. (Encourage them to steer with the other hand also) Can you stop the ball by putting a foot on top of it? Pupils to develop the skill of anticipation to gain possession. 4 vs 4 'end ball' game. Recap rules. Cannot move with the ball. Score by getting the ball in an 'end zone'.	
3	Catching and Movement Skills To develop body awareness through catching beanbags in a variety of ways. To understand how to adjust the body to catch high and low object. To develop the use of partner and group work to develop catching under pressure in a game situation.	Warm up – Play relay games in teams of 4-6, travelling in a set way, change throughout the activity (dribbling, skipping, throwing and catching). Pairs – work on improving catching skills through a variety of advanced throws (high, low, side). Throw and catch while travelling. ½ pupils have bibs, ½ no bibs, mixture of pupils have ball, travel around in a way discussed, on whistle pass to the opposite team, they must travel with the ball in a different way. Discuss - how best should we mark the opposing player preventing them from gaining possession? Progress to 5 vs 5 'end ball' game.	
4	Use of space To understand the importance of movement into space in order to attack. To develop throwing and catching in a wide variety of ways. To be able to replicate the passing technique under some pressure. To understand the use of rules and conventional scoring methods.	Warm up – 'traffic lights' game with a football. Group stretches. 'Through the gate' - pairs with a ball. Set up different coloured gates. 1 pair to pass the ball through the gate continually. First hand pass then feet pass. Moving in line with the ball to receive it. (placement of feet, actual passing of the ball, stopping the ball is important). Explore hitting and kicking a ball in a variety of ways. 4 vs 4 football small sided game. Discuss possible tactics to maintain control, use ideas from earlier weeks. Plenary ideas: how did you use the available space and use tactics to keep possession?	
5	Dodging To demonstrate the ability to replicate core invasion game skills in a game situation. To demonstrate the ability to dodge and anticipate. To begin to make decisions about the use of basic tactics. To describing the way the body feels during a game.	Warm up in a small grid. Can you run forwards, backwards & sideways? Use 2 markers approx. 5 meters apart. How many times can you run round your markers in 30 secs? Can you beat your score? 'Ball tag' – use a soft small ball in a small grid. The tagger runs to tag the dodgers with the ball. Once a dodger is tagged, that player becomes the tagger with the ball. Play 4 v 4 end ball game but pupils score by throwing a bean bag through a hoop in each end zone. Encourage pupils to look for spaces and maintain possession. Pupils to describing the way your body feels during a game. Explore heart rate and breathing rate.	
6	Competitive games & Assessment To demonstrate the replication of core invasion game techniques. To understand about finding open spaces away from the defender. To describe how to make it difficult for the opponent to attack. To assess their performance against the NC.	Warm up – 1 ball between 2, walk around with ball in a particular way – dribbling with feet, bouncing & throwing. On whistle pupils must pass to another pupil and continue without a ball. Use uni-hock sticks and explore using a ball. Pairs- passing and moving with the ball. 4 vs 4 uni-hock small sided game. Create small goal using bench or hoops. Pupil progress to be assessed. Plenary & summary; How did you make it difficult for the opponent to attack? What would you do differently next time?
